Exporting country:
Ministry of:
Department:
Province or District, etc.:

I. Identification of the birds

Type and Species (Scientific name)	Breed	Number and sex	Identification marks

II. Origin of the birds

Name and address of the premises of origin:

III. Destination of the birds

Name and address of consignee:

Nature and identification of means of transport:

IV. Declaration

I, undersigned, a duly authorized government veterinary officer, hereby certify that:

1. The country of origin is free from Notifiable Avian Influenza (NAI) as defined in the Terrestrial Animal Health Code of the OIE.
2. The said birds were born and reared in a zoological garden which is under the regular surveillance of an accredited veterinarian¹, or originate from a premises which is under the surveillance of an accredited veterinarian.
3. The said birds are identified by closed leg ring or microchip ISO compatible¹.
4. The premises of origin and the area around it in a radius of 10 km has been free from Newcastle disease during the last 12 months and has not been under any kind of veterinary restrictions due to animal diseases.
5. The premises of origin are recognised as being free from fowl typhoid (gallinarum disease) and white diarrhoea (pullorum disease) for the recent 12 months prior to export.
6. The said birds were kept in isolation approved by the Veterinary Services since they were hatched or for the 21 days prior to shipment and showed no clinical sign of infection with a virus which would be considered NAI in poultry during the isolation period.
7. The said birds have been serologically tested for: fowl typhoid (Salmonella enterica Gallinarum), pullorum disease (Salmonella enterica Pullorum), by agglutination test, and notifiable avian influenza, by H.I. and PCR test, within 14 days of exportation with negative results².
8. NAI virus isolation or PCR test was carried out on both oropharyngeal and cloacal swabs within 14 days of exportation with negative results.²
9. The said birds have not been in contact with birds which do not meet the abovementioned conditions.
10. The said birds were examined by me within 48 hours prior to loading and were found healthy and free from any signs of contagious or infectious diseases.
11. The said birds were containerized in new cleaned and disinfected cages conforming to IATA regulations.
