

Traceability declaration for Belgium for the Export of Horses to The United States regarding the 60 days preceding export

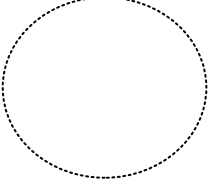

I undersigned, _____⁽¹⁾, official, licensed or FEI veterinarian in _____⁽²⁾ with registration number _____⁽³⁾, hereby confirm that I have supervised the horse _____⁽⁴⁾ with following identification number _____ (microchip)⁽⁵⁾ and passport _____⁽⁶⁾ during its stay in the country from _____⁽⁷⁾ and hereby declare that the said horse

- has resided in the following establishments at the mentioned periods

Establishment (name and full address)	Start of residency (dd/mm/yyyy)	End of residency (dd/mm/yyyy)	Country

- has been inspected and was found free of evidence of contagious disease and, insofar as can be determined, exposure thereto during the period of residency;
- has not been on premises where African horse sickness, dourine, glanders, surra, epizootic lymphangitis, ulcerative lymphangitis, equine piroplasmiasis, contagious equine metritis (CEM), equine infectious anemia, Venezuelan equine encephalomyelitis or vesicular stomatitis has occurred during the period of residency in the 60 days preceding exportation, nor have these diseases occurred in any adjoining premises during the same period of time;
- has not been used for natural breeding, for the collection of semen for artificial insemination in the case of stallions, or for artificial insemination in the case of mares, from the time the specimens were collected through the date of export.⁽⁸⁾
