

Advice 32-2007 of the Scientific Committee of the FASFC: draft royal decree on measures to prevent the introduction and the spread of fireblight (*Erwinia amylovora*)

The draft royal decree aims to render permanent the temporary measures applied to prevent the introduction and the spread of fireblight (*Erwinia amylovora* (Burr.) Winsl. *et al.*) and which were provided in a ministerial order of September 10th, 2004.

The text of the present draft royal decree is almost completely similar to the text of this ministerial order. A few differences can be seen however and some of them are discussed in the advice.

In conclusion, the Scientific Committee gives a favourable advice on the present draft royal decree.

The full text is available on this website in dutch and in french, respectively under the section "Wetenschappelijk Comité/Adviezen" and "Comité scientifique/Avis".
