

**Advice 14-2008 of the Scientific Committee of the FASFC: modification of a royal decree concerning the control of infectious diseases in honeybees**

This advice concerns a draft royal decree that completes the royal decree of March 7<sup>th</sup>, 2007 on the control of infectious diseases in honeybees with regulations concerning the identification of relocated beehives and the mention that no wax should be returned to honeybees when the colonies are infected by foul brood.

The Scientific Committee agrees with the proposed amendments.
