

Advice 02-2014 of the Scientific Committee of the FASFC on the draft royal decree regarding the measures to be taken to prevent outbreaks of notifiable diseases in pigs.

The Scientific Committee is asked to give an advice on a draft royal decree regarding the measures to be taken to prevent outbreaks of notifiable diseases in pigs. This new royal decree aims at stimulating the daily correct application of prevention and biosecurity measures in pig farming.

The Scientific Committee is of the opinion that the draft royal decree is of good quality and can contribute to the further development of awareness regarding biosecurity in pig farming and can stimulate the correct daily application of these measures. The Committee formulates some general and specific remarks. In conclusion the Committee gives a favorable advice, provided that the remarks are taken into account.
