

**Advice 15-2014 of the Scientific Committee of the FASFC on the evaluation of a project of royal decree laying down animal health requirements governing trade and imports of certain animals and defining the conditions for approval of organizations, institutes and centers owning such animals**

This project of royal decree is a partial transposition of Directive 92/65 / EEC.

The Scientific Committee approves the content of the project of royal decree. The Committee recommends to increase the readability and understanding of the text and to adapt the content of the Directive to the specific epidemiological, political and legislative Belgian context. It is also recommended to replace Annex II with a reference to the new list of notifiable diseases listed in the Royal Decree of 3 February 2014, and to add two diseases of nonhuman primates: Ebola and monkeypox.
